www.wago.com/2092-1129

Item description

- Universal connection of all conductor types
- Simple, push-in termination of solid and ferruled conductors
- Easy-to-use design does not require special tools
- Ability to wire while mated or unmated
- Testing parallel to conductor entry tip contact
- Also available with gripping plates
- Integrated locking latches prevent accidental disconnection

Data Notes

Safety information

The picoMAX® Pluggable Connection System includes connectors without breaking capacity in accordance with DIN EN 61984. When used as intended, these connectors must not be connected /disconnected when live or under load. The circuit design should ensure header pins, which can be touched, are not live when unmated.

Direct marking

Other versions (or variants) can be requested from WAGO Sales or configured at https://configurator.wago.com/.

Disconnecting a female connector via unlocking tool. Plug unlocking tool into the male header's locking latch.

Insert unlocking tool until it hits the backstop. Wedge opens locking latches.

Pull on both unlocking tool and conductors to remove female connector from male header.

Conductor termination

Inserting fine-stranded conductor into mated female connector via push-button.

Inserting a fine-stranded conductor into an unmated female connector via push-button.
